CAT® CERTIFIED REBUILD OPTIONS AT A FRACTION OF THE NEW MACHINE COST

CAT CERTIFIED POWERTRAIN REBUILD

- > Covers radiator, engine, transmission, torque converter, final drive and axle
- > All components disassembled
- > All critical engineering updates incorporated
- > Restores powertrain to like-new performance

We install Cat® Product Link™ on all Cat Certified Powertrain rebuilds. That means your powertrain will generate data that you can use to boost productivity, reduce costs and manage risks.

CAT MACHINE COMPONENT REBUILD

- > Restores engine or transmission, plus torque converter
- > Like-new performance
- > Includes critical engineering updates
- > Extended coverage available

CAT FULL MACHINE REBUILD

With a Cat Full Machine Rebuild you will recover all the performance of your original machine – and benefit from the latest engineering updates.

- > Like-new performance for a fraction of the price
- > Completed with genuine Cat parts
- > New parts warranty on all replaced parts

We install Cat Product Link™ on all Cat Certified Full Machine rebuilds. That means your machine will generate data that you can use to boost productivity, reduce costs and manage risks.

We offer a broad range of smart, cost-effective rebuild solutions that work for you.
